

A FOREST SCHOOL ON OUR COMMON

Dear Villagers,

An important part of our new plan for managing our Common is establishing a regular Forest School.

By doing this we hope to achieve four things:

1. to help young people understand and therefore appreciate the value of our local wildlife;
2. that a Forest School will make the Common more familiar to villagers through their children's interest in wildlife;
3. that it might establish a new group of villagers who will be interested to manage the Common into the future in ways that conserve and even enhance the wildlife value of the Common;
4. that the Common will become appreciated and central to the village as a place of interest and a good place to visit, socialise and relax.

What we would like to know is if any families with children would like their children to attend a Forest School session, once month at first and then maybe more often if people enjoy it.

Please contact Graham on gwthorne49@gmail.com if you are interested.

Best wishes to all

The Coleshill Common Management Team
